

How To Find The Mobile Number Linked To Aadhar Card Via mAadhaar app

Step 1: Download the mAadhaar app from the Play Store.

Step 2: Install the app and launch it.

Step 3: Sign in to mAadhaar app by entering your mobile number and giving OTP.

Step 4: In the “Services” section, scroll down to Aadhaar Services and click on the “Verify Aadhaar” option.

Step 5: Enter your 12-digit Aadhaar card number.

Step 6: Enter the security code and hit the “Submit” option.

Step 7: Now, you can see your Aadhaar linked phone number last 4-digit.

The last 4-digit of your Aadhar card is more than enough to find the exact phone number which is linked with your Aadhar card. And if there is no mobile number added to your Aadhar card then you will see a blank space.
